## CLOSED FRAME

(Shown with optional "AWWA" nut)

# Sample Specifications

There shall be furnished a position indicating device, "Indico Model 179" which will mount over the shaft and will visibly show the position of the valve at all times. All materials of construction shall be corrosion resistant and no lubrication of the driving parts will be required. The pointer window shall be manufactured of clear Polycarbonate break resistant material. All legends shall appear in large letters on a contrasting background for easy visibility.

**Typical Indico position indicator installation**

Cutaway view of VPI installed in street box with 2"AWWA nut, Valve box adapter and cover in place.
